VOL. 1.—NO. 25. PITTSBURGH, MONDAY MORNING, OCTOBER 5, 1863. PRICE THREE CENTS.

The Daily Commercial.

MONDAY, OCTOBER 5, 1863.

CANNON FOR FORT HAMILTON.—On Tuesday, twelve 15-inch Dahlgren cannon arrived in Jersey city, from Pittsbugh, and were taken to Fort Hamilton, to be mounted for the defence of the harbor.

THE cause which reduced to the ranks Gen. ROGER A. PRYOR, of the rebel army, was cowardice in some skirmishes on the Rapidan. Those who remember PRYOR'S furious speeches in Congress some years ago, and his conduct subsequently in the "affair" with POTTER, will not be surprised at this announcement.

WHILE Adjutant-General THOMAS was on the passage up the Mississippi from Helena, recently, he discovered a lieutenant colonel of a Missouri regiment intoxicated and behaving in a most shameful manner. The General told him he had disgraced the service, tore off his shoulder-straps, put him under guard, and dismissed him from the service.

A SOLEMN WARNING TO ENGLAND—It is reported this morning, both from London and Richmond, that JEFF. DAVIS has ordered Mr. MASON to return to America, and that he means to "break off diplomatic relations with England." This will be a dreadful blow to the English. No doubt consols will fall at once, and we may expect to hear by the next steamer of a general panic in the English money market. Mr. DAVIS ought to be a little careful; such an announcement as this should be broken gently to the wretched British public; it is cruel to overwhelm even these miserable shopkeepers with such disastrous news.

OUR PHILADELPHIA LETTER.

General McClellan and his Visit to Philadelphia--Assessors in Trouble--Gossip about Generals in the Field---Invitation to the Russians---Another City Railway --Sale of Unclaimed Packages--The Girard Coal Lands--Political.

Correspondence to the Daily Commercial.

PHILADELPHIA, Oct. 2d, 1863.

I telegraphed you of General McClellan's departure for New York a day or two since. He soon became disgusted with the manipulations of certain copperheads among us, and in order to preserve his self-respect, withdrew to Gotham. I say this with a full knowledge of what transpired after his arrival here, and there is no "buncombe" about it. By the way, when you find me in that business—retailing "buncombe," I shall feel indebted to anybody who will expostulate. McClellan had not been in town more than two or three hours before he was apprised of an intended serenade, which was to be given him at his mother's residence on Spruce Street. The finale of this affair has been given—his wife bowed from a window, and thanking the crowd for their kindness, said that the General was not at home. About that time he was down at the La Pierre, having a sociable chat with an old military friend. As he expressed himself when told that he was to be serenaded—"I have made up my mind not to mix in with any political demonstration." The Woodward crowd tried to get him out to Norristown while the State Fair was being held, and as I advised you, they imagined at one time that the matter was settled; but the General's better sense prevailed and so they had to go in mourning.

I also advised you, briefly, by telegraph, that one of our assessors had been arrested for misdemeanor in office, in refusing to assess a soldier. Several of these copperheaded individuals have got themselves into difficulty in attempting to interfere with legitimate rights of soldiers, who have received a twenty days' furlough for the purpose of going home to vote, and one of them was held to bail in five hundred dollars for a further hearing. One or two prompt visitations of justice will restore them to a proper understanding.

I hear, from pretty reliable authority, that of the resignations of Generals Howard and Slocum, which are reported to have recently been sent in for acceptance, that of the former is peremptory. The general presumption is that an unwillingness to serve under General Hooker underlies all. They are both good officers, and in all probability some satisfactory arrangement will be made, in order that their talents and experience may be retained in the grand old army of the Union. As I am engaged on military topics, I may as well finish them up at once; therefore I give another statement which was made to me a day or so since, by one who has occasional interviews with certain officials who are presumed to know more or less of army and navy affairs. It is, that General Thomas's brilliant manœuvres and stubborn bravery at Chicamauga have so dazzled the eyes of the "powers that be" at Washington, that Rosecrans has been somewhat thrown in the background. A brief season will unfold all, but, for one humble individual, I should feel sorry to hear that anybody had succeeded to his command—at least until another trial.

At last, as usual, Councils have adopted a resolution inviting the Russian officers, now at New York, to accept the freedom of the city. We must always be behindhand, in these matters as well as others of more importance. After Boston, Albany and Baltimore, then comes the Quaker City. However, I presume it is all a matter of form, as it is not very probable that the "koffs" and "sdi's" will care to bother their time about our "inland town;" and besides, by the time the New Yorkers get through with them if they are not anxious to get "well off shore," then I am no judge of her public functionaries.

We are to have another railroad in town. A resolution has been concurred in by Councils giving the Southwark Railway up Delaware avenue as far as Callowhill street. The property holders along the river front seem to be pleased with it, and I presume it will prove both remunerative and convenient, two desirable features. The Pennsylvania railroad will no doubt make it a great convenience, for they will be enabled to run heavily laden cars up and down, giving them steam power at Washington street. Viewing it from the present standpoint it certainly looks as if the project was one which would be satisfactory to all the heavy dealers, for they can by this road avoid a great deal of hauling up the hill-side in order to reach the freight depots, and then, see what cartage it will save, and valuable time, too.

Yesterday the Adams Express Company held their quarterly sale of unclaimed packages. It is really surprising what a quantity of addleheads still exist on this "footstool." A fresh crop seems to have grown between each of these sales, for certain it is that *very* few who were buyers at one sale go the second time. Could it be possible that a Corporation, managed as shrewdly as that has always been, would put up, or at least sell, any package at less than its value—"if the Court knows herself, and she thinks she does," she would not. However, if people will go and invest in such lotteries, why, I have no more to say.

There is considerable excitement just now, among certain, parties, as to which of them shall get a lease on the Schuylkill Coal Lands, belonging to the Girard estate. There has been much cross-firing in the Select Council for a day or two past—as if the lessees, whoever the lucky ones may be among the score, were not the only ones to be benefited by the result, aside from the Estate. At any rate, it needs money, being some ten thousand dollars behind now; and whoever is successful in making terms should be carefully scrutinized in a pecuniary view.

Among other meetings for "Curtin and Agnew," to-night, we were to have an old-fashioned "whopper" at Sixth and Dickerson streets, but as I write,—about 8 p. m.—the rain is pouring and the wind howling, so it is doubtful whether we shall be able to get a "quorum." However, everything looks so favorable that we can afford to lose one night outside, provided we make up for it in-doors.

CINCINNATI CORRESPONDENCE.

Gen. Joe Hooker and Staff en route for Chattanooga--- Burnside's Resignation Accepted---Who is to Blame for the Result on Chicamauga---Telegraphic Communication opened between Knoxville and Cincinnati---Ohio Good for Thirty Thousand Union Majority.

CINCINNATI, Oct. 1st, 1863.

Eds. Commercial:—Gen. Joseph Hooker and staff are, or were last evening, at the Burnett House, as the telegraph has probably advised you. It has been supposed that Gen. Hooker was en route for Chattanooga to take command of large reinforcements from the East, which, is now no secret—since the rebel papers themselves have the information—are now on their way to Chattanooga. This is not correct. Gen. Burnside's resignation has been accepted, and Gen. Hooker goes to East Tennessee to succeed him.

There will be time enough hereafter to discern the merits or demerits of General Burnside, and to decide whether he or the War Office is most at fault in failing to reinforce Rosecrans in time for the late battles. My own opinion is, founded on a somewhat intimate knowledge of the strength of General B.'s command, that had he reinforced Rosecrans with every available man in his Department, it would not have been sufficient to change the result of the trial of arms on Chickamauga Creek. The wonder is why the Ohio Brigade at Corinth, and the thirty or forty odd thousand troops of Sherman's corps were not ordered forward to the scene of action.

Some uneasiness has been felt because of the interruption of telegraphic communication with Rosecrans, and this gave rise to the report that the army of the Cumberland had surrendered to the enemy. The fact is the river runs along the south bank of the Tennessee from Chottanooga to Bridgeport, and the enemy have advanced a small force which now occupies up to the river shore between the two named places, and consequently interrupt the lines at the point of occupation. The telegraph is open from this city to Bridgeport, and despatches are sent by couriers along the north side of the river to Rosecrans. It may be interesting to your readers to know that the telegraph is in operating between this city and Knoxville.

What is there to prevent the enemy crossing the Tennessee in the vicinity of Stevenson or Bridgeport, and at once advancing into Central Tennessee. There is something, moreover, in the quiet that has succeeded the battle, and it may be construed in either of two ways: That Bragg is too badly shattered to resume the offensive, or is preparing for a flank movement which will compel Rosecrans to abandon Chattanooga by a resort to much the same strategy as that which ousted Bragg from the celebrated *point d'appui*. A few days will probably clear up the mystery.

Public attention here is divided between the war bulletins and political movements in Ohio. The Unionists are sanguine of success, and claim the State by 30,000 majority on the home vote. The Copperheads, on the other hand, do not seem so confident, but still insist on a small majority for Vallandigham. By the way, there is a good thing, which has not yet found its way into print. You know that Fernando Wood has all along insisted that he had propositions from Southern sources, which, if accepted at Washington, would lead to peace in the bonds of the old Union. Since his correspondence with the President was published, we have heard nothing more of the celebrated propositions, and Fernando himself seems to be ashamed of them.

Vallandigham has other and better assurances for the hope that is in him, and very confidentially, of course, imparts to all the sympathizing friends who visit him in his exile, the profound fact, that, while he was in the Senate, he had a long interview with the Vice President of the Confederacy. Mr. Stephens, says Mr. Vallandigham, *sotto voce*, to his auditors, assured him that he was yet a Union man, and was only waiting for Jeff. Davis to die, that he might use his official influence and position to bring the South back into the Union! I know several gentlemen to whom Mr. V. has imparted this great news confidentially. But if Davis should be long-lived? There is the rub.

Faint Sketches of Men of Our Day.

NO. XIII.—MAJOR GEN. M'CLERNAND.

The West has produced our greatest generals and most efficient soldiers. Whether it is because the Western men are compelled to carve out their own way; the free atmosphere; or because the mass of the western people are keen readers of human nature, and only elevate the really deserving, or whether all these combine to bring about the result, it *is* indisputable that, in this contest, our most able and *reliable* generals and soldiers belong to the West. Among the first class Major General John A. M'Clernand, a native of Kentucky; but a citizen of Illinois. General M'Clernand is a representative man—a *people's* man. While very young, he began the study of law; but before he began to practice, he engaged in the Indian campaign which terminated at the battle of Bad Ax. When he began to practice law, his talents were so very respectable that he was elected to the State Legislature three times in succession. Afterwards he represented his district in Congress five terms, and although he was a bitter and unyielding Douglas Democrat, the moment the rebellion broke out he instantly resigned his seat, and returned home to recruit the M'Clernand brigade. Soon afterwards he was appointed a Brigadier, and while stationed with his brigade at Cairo (under General Grant) he acquired a reputation for efficiency and tireless energy. From the day he entered the service down to the present hour, General McClernand has exhibited the very first qualities of an able commander. In no one instance has he failed to fulfill the expectations of his friends. When Fort Donelson was invested, Gen. McClernand commanded the Federal right, which, it will be remembered, sustained the brunt of the fight, where McArthur and John A. Logan, then a Colonel, immortalized themselves. Never were greater deeds of valor performed, never did men fight more desperately than McClernand's command before Donelson. At the battle of Pittsburgh Landing he fought his command most gallantly. The accounts given at the time, and the statements I had from many of his officers, to the effect that they had stood up fighting Gen. Beauregard *eight hours*, have never been denied. Looking over the ground he contested inch by inch carefully the next day, marking the havoc and destruction in those forests and fields, I could have no doubt as to the *nature* of the conflict he had been engaged in, for everything spoke of the desperate resolve, *victory or death*. Gen. McClernand handled his men so well in the two days' fighting at Shiloh that the government commissioned him to organize a small army, which occupied the General's time from April, 1862, till the beginning of the present year, when he went to the relief of the gallant Sherman, who then fell back from his attempt on Vicksburg. Of the siege of Vicksburg, and of John Alexander McClernand's conduct there, it is unnecessary for me to write; the whole country counts its transactions from the dates of the series of brilliant victories which culminated in the surrender of Vicksburg. The names of Grant, McClernand, Sherman and Logan will go down to posterity side by side.

The photographs of McClernand convey a correct idea of the man. Of a commanding form, at times imposing, especially when he touches the universal theme, his whole bearing impresses the beholder with respect, while his manner and language enlists your unreserved confidence. No man can listen to McClernand and deny his eloquence, wonderful force of character or tremendous power in swaying men's minds. The general is proverbially courteous and polite to men of every rank and station. I have seen him leave his comfortable quarters on a sultry day to direct a poor devil of a straggler to his regiment or division with as much politeness as though he were in the presence of a high-bred lady.

IT IS clearly seen from the whole tone of the Richmond papers that they feel the strongest dissatisfaction, bordering on indignation, that Gen. Bragg, with the tremendous force at his command, could not recapture Chattanooga. Their disappointment is very bitter.

NOTICES of new Publications, and many other articles prepared for this morning's issue, are crowded out.

OUR Philadelphia and Cincinnati Letters, together with a sketch of General McCLERNAND, will be found on the First Page of this paper.

THE DIFFERENCE.—What is the difference between a copperhead and a rebel ram? One goes *for* the Union with an "if," the other goes *against* the Union with a *but*.

HON. JAMES M. SCOVEL, of Camden, N J., has been nominated by acclamation for the office of State Senator, by the Union Convention of his District.

BRIGHAM YOUNG'S new temple at Salt Lake, is built of granite, nearly completed, and the most splendid structure of the kind in the country.

WHAT THE PEOPLE OF NEW ORLEANS THINK.—The *Era* says:—"The armies of the Union must march on until every rebel in arms is captured or driven from the land."

IT is a singular coincidence that the Indian name of the river near which General ROSECRANS fought his last terrible and bloody battle, that of Chickamauga, means "the Stream of Death."

LOOK WELL TO YOUR TICKETS.—We were shown, on Saturday, a printed ticket, with the letter "G." omitted in CURTIN'S name. Be particular that it reads ANDREW G. CURTIN.

THE most successful State Fair, pecuniarily and otherwise, ever held in Michigan, has just closed. The entire receipts, during the four days' exhibition, exceed $10,000.

THE guerrilla General RICHARDSON, who has so long been a terror to the people of West Tennessee, has been taken prisoner. He had ventured to Memphis in disguise, but was recognized and arrested.

AMONG a recent batch of Confederate prisoners is one man only twenty-four years of age, whose hair is as white as snow. He says it was fright in his first fight which caused it.

THANKSGIVING DAY.—President LINCOLN has issued a Proclamation appointing the last Thursday of November next as a day of Thanksgiving and Prayer. It will be found under the telegraphic head.

WHAT THE NAVY HAS DONE.—It has been ascertained that the captures by our navy during the war up to the present time, amount to thirty millions of dollars. Only one hundred thousand dollars of this sum has been awarded to captors.

GENERAL BANKS and General HAMILTON are not on speaking terms. That is probably why one is to be the General in command of the department of Texas, and the other the Military Governor of the State of Texas.

DEATH OF A MISSIONARY.—Rev. HENRY V. RANKIN, a missionary of the American Board at Ningpo, China, died there recently. He had been for many years identified with the mission cause in China, and was held in high esteem by the Church.

THE border counties of Missouri still continue to be very disturbed. It is reported that General CURTIS is to have command of Kansas, which is to be made into a separate department, and General POPE is spoken of as having been assigned to the Department of Missouri.

KEITT'S PREDICTION.—The braggart KEITT, in a public speech delivered by him at Columbia, at the commencement of the secession movement, said:—"South Carolina, single and alone, is bound to go out of this accursed Union; I will take her out if but three men go with me, and if slaves take her back it will be her graveyard."

SWORD TO GEN. BANKS.—A movement is on foot in Massachusetts to procure an elegant sword for presentation to Gen. BANKS as a special recognition of his services in taking Port Hudson. With the sword there is to be a novel volume of quarto size which will contain the photographs of the subscribers. The book will be embellished with a view of Port Hudson, a copy of the State arms, several fine photographs of the General, &c. The engravings, by BUFFORD, are to be printed on vellum.

A CORRESPONDENT of the St. Louis *Democrat* writes from Little Rock that two regiments of loyal citizens have been raised for the Federal army, and the third is now being organized. Many recruits have also been obtained for regiments from other States. The citizens, many of whom have been hid in the woods and mountains a year and a half, throng the streets daily by hundreds, They are welcomed to the protection of the old flag.

WEST VIRGINIA IN DANGER OF AN INVASION.—The Governor of West Virginia announces the probable invasion of the State by the rebel Generals MULVAIN and JACKSON, for the purpose of wasting and plundering the country. The announcement has created quite a stir among the inhabitants, and they are generally arming to resist. The most effectual resistance to these raids is for the citizens of the country subject to them to keep armed and organized ready for the enemy whenever he makes his appearance.

A CHANGE OF COMMAND.—By a general order just issued by the War Department, the Twenty-first and Twenty-second Army Corps (Major Gens. McCOOK'S and CRITTENDEN'S) have been consolidated into one corps, to be called the Fourth Army Corps, and Major-General GORDON GRANGER placed in command. A court of inquiry has been ordered to investigate the conduct of Generals McCOOK and CRITTENDEN in the late battle near Chattanooga. Gen. GRANGER commanded our reserves on that bloody field, and by his high soldierly abilities rendered immense aid to Gen. THOMAS in covering the retreat of our army to Chattanooga.

A STEAM BOILER exploded on Saturday afternoon in the establishment at Buffalo, formerly known as the Swrrtz Iron Works. The building was demolished, and thirty persons were supposed to be buried beneath the ruins. Seventeen were soon afterward taken out, but so injured that most of them will die.

Woodward's Convention Speech.

One of the smallest things developed in this campaign is Judge WOODWARD'S repudiation of his speech reported in the fifth volume of the constitutional debates. This speech had been published fifteen years when he was nominated for the Supreme Bench, in 1852. Then for the first time he comes out and repudiates this one speech, admitting at the same time that the forty other speeches of his had all been submitted to him in proof, but not this one. Now as his resolution asserts, all the public care anything about, his prevarication did him no good, and only served to show to what desperate measures he would resort. His followers excuse him on the ground that he was very young then. The Judge, however, says he was the old foxy Democrat, setting traps for runaway Whigs.

The only important thing about the whole matter is the exhibit it makes of the means resorted to to get out of a tight place. Ex-Governor JOHNSON, at Ligonier, referred to WOODWARD'S amendment, saying he would not hold him to the reported speech, as he had denied it. The President of the meeting, Mr. BELL, a member of the Reform Convention, jumped to his feet and declared that he had heard the speech delivered, and if Judge WOODWARD or any one else denied it, that such denial was false. A number of the other members of that convention have all declared that the report accords exactly with their recollection of the speech. Mr. CUMMINS, of Juniata, who answered it on the floor, must have understood it just as reported. The denial of GEO. W. WOODWARD, therefore, is the weakest and most contemptible dodge of this campaign.

THE DAILY POST, true to its secession proclivities, published, from the *World*, a New York rebel print, a transaction of M. Chevalier's Pamphlet, with the significant heading—"Recognition of the Richmond Government the Necessary Consequence of the Mexican Expedition—The Settled Purpose of Napoleon — The Navy of France Her Final Argument."

Let any one examine this production, and he will come to the conclusion that it is got up for the especial interest of the Confederacy in France; but it is doomed to the destiny that awaits the *intellectual efforts* of the *Post*, in its advocacy of WOODWARD—nothing but mortifying failure and disappointment.

France, no more than the sovereign will of our Keystone State, will ever recognize the claims of the Southern Rebels upon its favor and protection.

But one cannot fail to perceive the latent desires of the *Post*, and its Copperhead party. Nothing would afford them greater ecstacy than the complete triumph of those traitors, who are plotting dismemberment in our country, and the virtual overthrow of our (to them) hated institutions—*Constitution*—and all.

But let us whisper into the *Post's* ears; his influence is powerless to carry his own party—and his defeat at the ensuing election will be so overwhelming, that we fear he will be driven to some startling act of desperation; at any rate we are ready to grant him all the proper vouchers for his approaching voyage up Salt River.

There is no old party issues involved in this election. It is purely a struggle between the upholders of our country on the one hand, and the suicidal efforts of those who aim at its destruction, on the other.

All true men will rally around the flag of their dearly beloved fatherland.

All true lovers of freedom, from other lands, will join the natives in defending the glorious old Stars and Stripes. They swore they would do it, and they mean to observe their oath to the strict letter.

Then let us unite as a band of brothers, in defending our country and its Constitution and Laws—knowing no party or creed in our honorable warfare.

Neutrals.

Neutrals, in all great contests, are invariably enemies of the right. The Government is now contending for its existence. To render it assistance is patriotism, to oppose it is treason. To be neutral, is to be more dangerous to its preservation than opposition, from the fact that neutrality withdraws, under false pretences, the forces that belong to the State and quietly and insiduously aids, comforts and encourages the open and avowed enemies of government.

In all the warfares of human progress and enlightened civilization, against error and barbarism, whether in religion, in morals, in philosophy or government, *non acting* neutrality has been the most serious and damaging agent of the wrong.

The Divine Teacher has said that we can not serve God and Mammon; that we can not obey two masters; that in all conflicts between truth and justice, falsehood and wrong, we must be for or against.

In the wars, revolutions and changes of governments, for better or worse, that have occurred among men, the great truth has been demonstrated, that the men of non-activity—neutrals—have been always in the way of progress, hateful to their contemporaries of all sides, and despised for their poltroonery by the judgment of after times.

Have we among us, in this life struggle of the nation, this neutral brood? If so, let us rouse them from their quiet lair and compel them to take sides.

It is now proper to say what constitutes the neutrality of which we complain.

We hold that any citizen who refuses an earnest, free and full support to the present National Administration in its efforts to crush treason, is an open enemy or a neutral.

Men who blame every act of the Government, and find fault with every measure, whether military, financial or otherwise, are open enemies of the Government. Those who embarrass the Administration by faint praises, or its policy by refusing support to its friends, whether in or out of office, are neutrals in this contest, however brave may be their words and pledges of fidelity to principle.

Let us illustrate. In this State we have a Governor to elect this month. We have two candidates—one an open, avowed, and able friend and supporter of the National Administration; the other, its bitter and unrelenting enemy. Between these a choice is to be made. The election of one, it is admitted, *destroys* the *power* of the Administration to save the Government; whilst the selection of the other insures a glorious triumph for free institutions and National unity.

Now we allege, that any citizen who fails to give an earnest, hearty and outspoken support to the candidate friendly to the National Administration, is a neutral, and valueless in this great fight. Professions of quiet and *negative* aid, do not change the character of this neutrality, but may render it more dangerous than the active effort of avowed opponents. The one may be watched and his designs avoided or put under, but the other is the wolf in sheep's clothing, from whom no one is safe.

THE first National Bank of St. Louis will go into operation on the 15th inst.

CITY INTELLIGENCE.

Ho, for Uniontown.—The committee for the Uniontown Convention have secured transportation for all who wish to go. It is imperatively necessary that all who are on the train should have tickets, which can be had this morning, at Wilkin's Hall.
By order of COMMITTEE.

Meets To-Day.—The Criminal Court will commence its October sessions to-day.

The State Fair.—It is estimated that not less than ten thousand persons visited the recent State Fair at Norristown.

Coming—Dan Rice's great show will be in Harrisburg on the 9th, and will then come this way.

New Churches.—A new M. E. Church was recently dedicated in Oil City. A sum sufficient to build a Presbyterian Church in the same town is being subscribed.

Watch House.—Last night, at ten o'clock, there were but three occupants of the watch house, two male and one female, all for drunkenness.

Gone to the Regatta.—Jas. Hamill, in company with some of his friends, left last night to be present at the Empire City Regatta, which comes off at Harlem to-morrow.

At Home.—We observe a large number of old familiar faces in the city the past few days. A number of gentlemen who hold positions in the different Government bureaus have come home to aid the Government by their votes at the approaching election.

Soldiers.—A large number of sick, wounded and convalescent soldiers, belonging to regiments in this vicinity, arrived in the city Saturday night from the various army corps. They are all staunch Curtin men.

Important.—Commisaioner Lewis has decided that proprietary medicines, perfumery, cosmetics and playing cards purchased before the passage of the Excise law must be stamped if sold or offered for sale after September 13th, 1863.

Wilkins Hall To-Night.—General G. R. Smith and Judge Hart, of Missouri, will address our patriotic citizens this evening, at Wilkins Hall. A full turn out of all Union-loving people is desired, and we have no doubt the spacious club room will be crowded.

Liable to do State Service.—The question has often been asked us whether or not a man who has been exempted from the operations of the draft is still liable to be called on to do service in the State militia. We have never seen any decision for this State, but the Governor of Connecticut has decided that such persons are liable.

Fell Through a Hatchway.—A man named Richardson, on Saturday evening about dark, fell through a hatchway of a Liberty Street warehouse, and received very serious injuries. He was conveyed to his residence in Cherry Alley, where his injuries received prompt attention.

Prosperity of Oil City.—The *Register* says:—New buildings are being erected in great numbers all over our flourishing city. Lumber nearly makes our streets and sidewalks impassable. Every evidence goes to show the prosperity of this community. In a year more Oil City will rank second to no other town or city, in size, in Western Pennsylvania outside of Pittsburgh.

Railroad Accident At Wooster.—We were informed yesterday that a railroad accident of a serious character, occurred at Wooster on Thursday night to a train on the Pittsburgh, Fort Wayne and Chicago Railroad, by which a fireman was killed, and the baggage master seriously injured. The rumors of the accident were very vague, and as we were unable to learn the particulars, we can only give the above.

Motion Argued.—In the Quarter Sessions on Saturday, the case of the convicted forgers, Emory and Millville, motion for new trirl, came up for argument. Emory argued his own case, and is said to have once practiced law in Boston. His argument consisted principally of assertions, with some little law. Mr. Ross Forward appeared for Millville, and made a lengthy argument to the Court in his behalf. The Court took the papers in the case, and will give an early decision.

Alleged Murderer Returned.—During the late invasion of the State John Forney, who was confined in jail ot M'Connellsburg, Fulton county, charged with shooting Lieut. Ford, of the provost guard then stationed at this city, while that officer was in the act of arresting him as a deserter, was released from prison by the rebels and carried South with them. He returned to M'Connellsburg last week, and delivered himself up for trial at the next term of court.

Typographical Union.—The regular semi-annual election of the Pittsburgh Typographical Union, was held on Saturday evening last, resulting in the choice of the following officers for the ensuing term:
President—James M. M'Shane.
Vice President—John H. Joy.
Recording and Corresponding Secretary—John A. Black.
Financial Secretary—Robert W. Wright.
Treasurer—Thomas W. Wright.
Trustees—Alex. Andrews, James E. Hartzell, J. Boyd.
Sergeant-at-Arms—James Rattigan.

Meeting at East Liberty.—The loyal Union men of East Liberty and vicinity, turned out on Saturday evening, in their strength for the purpose of renewing their pledge of loyalty to the Government. The meeting was called to order by P. H. Laufman, Esq., who proposed the following gentlemen as officers of the meeting: President, George A. Berry, Esq. Vice Presidents, Edward Rahm, J. J. Worthington, Springer Harbaugh, Daniel Negley, Joseph Woodwell, Samuel Chadwick, John Scott, B. L. Fahnestock and R. H. Hartley. Secretaries:—G. W. Hailman, and Johnston Ross, Esqs. Eloquent and patriotic addresses were delivered by Thos. Howard, Esq., J. J. Seibeneck, Esq., Col. T. M. Bayne, and Wm. C. Moreland, Esq. From one thousand to twelve hundred persons were in attendance. The meeting was a perfect success and adjourned at a late hour, with three cheers for Curtin and Agnew.

An Unmitigated Falsehood.

A vile sheet, called "*The Western Star*," and published at Beaver, Beaver county, has a local item in its last issue asserting that when Governor Curtin, on the evening of the recent mass meeting in that borough, left Rochester "he was so drunk as to be unable to get into the car without the assistance of two men." It is scarcely necessary to refute this infamous slander, as the honest-minded masses who were present at the Convention can testify to its falsehood. We were at the depot in Rochester and can positively assert that it is a lie out of the whole cloth. The Governor's conduct at Rochester, as it has been everywhere during the campaign, was such as became the dignity of the Executive of a great State, and the contemptible mind that could originate such a mean lie as that of the *Star* is only fit to associate with the enemies of his country.

Flag Presentations to Regiments in the Field.

Major Joe. Brown, late of the 102d Pennsylvania Regiment, Col. Patterson, sometime since had a beautiful regimental flag manufactured to order and forwarded to his old regiment, and we were, on Saturday, shown the written proceedings of the ceremonies on the occasion of its presentation. It will be remembered that on the retreat of the Sixth corps from the second battle of Fredericksburg, the old and tattered flag of the regiment was sunk in the Rappahannock, in order to prevent its falling into the hands of the enemy. Since that time, we believe, the regiment has been without a flag, and Major Brown, through his patriotism as well as affection for the 102d, had one furnished them. The corps, division and brigade commanders were all present at the presentation. Lieut. Col. Moody, of the 139th, made the presentation, and Col. Patterson received the colors on behalf of the regiment.

Mr. Wm. Semple, whose liberality in the organization of the 139th regiment is so well known, has had manufactured, by McFadden & Son, one of the handsomest flags we have ever seen, intended for the 139th, and on whose silken folds are inscribed the names of the battles in which the regiment has taken part. Mr. Semple will leave for the army to-day to present the flag.

Capt. Swearingen's Injuries.—Capt. Swearingen was more seriously injured than at first anticipated, and it will be three months at least, if not longer, before he recovers the use of his leg.

Young Martin.—Mr. Martin's son, who was so badly crushed by the street cars on last Wednesday night, was very low last night, and his recovery is extremely doubtful. In fact he was not expected to survive the night.

Horse Stolen.—A thief entered the stable of Mr. Jonathan Robertson, at Girard, Erie county, Pennsylvania, on the night of September 30th, and stole therefrom a fine chestnut sorrel horse, making good his escape.

For Sale.—We direct the attention of those wishing to invest in a homestead, to the advertisement of a three story house and a lot for sale at No. 36 Franklin Street, Sixth ward. The opportunity to purchase such an eligibly sitnated dwelling is not often offered, and we commend it to the attention of the public.

Broke Jail.—William Salsbury, aged 32 years, five feet seven inches high, with dark hair, blue, glassy eyes, and large Roman nose, and John R. McCool, aged 30 years, five feet eleven inches high, heavy set, with dark hair, broke jail at Mt. Gilead, Morrow county, Ohio, on Sunday afternoon, September 27th.

Not Entitled to Bounty.—The Second Auditor has decided that an officer promoted from the ranks, who has not served two years as an enlisted man, is not entitled to the sum of $100 government bounty, which would have been due him had he served his time in the ranks.

Improvements on Penn Street.—The Citizens Passenger Railway Company are grading Penn Street along the line of the Fair Grounds, and are laying down a double track at that place. The greatest depth of the grade will be about three feet. After it is finished, it will have a portion of the street, that has been a horrible mud hole during the winter season, in as good order as any other portion of the same.

Painful Accident.—On Friday night Mr. Abraham Fryer, formerly a member of Council from the First ward, and one of the firm of Fryer & Buntin, who own a planing mill on Duquesne Way, near the Point, while working about the machinery while it was in motion, had his left hand entirely severed through the centre of the palm, by accidently allowing it to come in contact with a saw. Dr. Dickson was called in, and amputated the remainder of the hand at the wrist.

The Uniontown Meeting.

The preparation for the attendance of a large delegation of Unionists from this city, at the Uniontown Convention to-day, are most complete. The delegation will meet at Wilkin's Hall this morning, at seven o'clock, and proceed to the Connellsville depot under the Chief Marshalship of Capt. John H. Stewart, our popular candidate for Sheriff, assisted by a number of experienced aids. The delegation will comprise many of our best citizens, and a harmonious time is anticipated.

Fatal Railroad Accident.—A collision occurred Thursday morning on the Pennsylvania railroad, near Mifflintown, between the fast train coming east and a freight train. It is said, that the freight train, which was a long one, was switching of the main track, and that watchmen had gone out to meet and check the fast train, which was about due. On seeing the signal, the engineer put down brakes, when the lever which controlled themunfortunely broke, leaving the train to dash over a down grade, on a track slippery with dew. It struck the hind end of the burden train, instantly killing the fireman, Mr. Iesse M. Frizel, of Harrisburg, and seriously injuring the engineer, Mr. Philip Lowe, also of Harrisburgh. Mr. Lowe will in all probability recover.

Reception of Hamill, the Champion Oarsman.

On the arrival from his recent victory over Joshua Ward, of New York, on Saturday noon, a large number of the friends and admirers of James Hamill assembled at the depot of the Central Road, and gave him a most enthusiastic reception, a salute being fired on his arrival. Hamill was accompanied by his trainer, Johnny Mackey, and by several of his backers. He had also with him the frail shell, weighing some thirty-eight pounds, in which he had won the race at Poughkeepsie. A procession was formed at the depot, consisting of two four-horse barouches, for the use of Hamill and his backers, and several other carriages, with a large number of people on foot. The procession was headed by Arbogast's fine brass band, and on the whole was a very flattering demonstration. Hamill is well known as a very modest young man, and quite averse to such displays in his behalf, but he bore the honors bestowed on him bravely.

Relief for the Lawrence Sufferers.

A pastor in one of the churches in Leavenworth City, Kansas, last night addressed the congregation of Rev. Dr. Howard's church, in behalf of the sufferers of the Lawrence tragedy, giving the most vivid description of the horrible acts of barbarity perpetrated by Quantrell and his band of marauding cut-throats. The audience, during the Reverend gentleman's remarks, were breathless with attention, and no wonder, for the recital of the outrages were such as almost to freeze the life-current with horror and indignation. At the conclusion of his remarks,—which were necessarily brief—a very liberal collection was taken up. Many were present who were doubtless unprepared to contribute as much as they would have wished, and to such we would say, that any contribution left with Rev. Dr. Howard will be thankfully received.

Rev. Dr. Howard,

Of the Second Presbyterian Church, in this city, has, we are glad to say, returned to his pastoral charge with renovated health. We are among those who had the privilege of hearing his first sermon, on Sabbath forenoon. With fervid eloquence and heartfelt earnestnest he addressed a crowded audience, on the peculiar duties of the clerical functionary. This able and patriotic Divine does not seem disposed to shirk his responsibilities to his God and his country. Whilst he will ever press the importance of living in conformity with christianity, he will not be insensible to the rights or wrongs of his beloved country, and will denounce in withering accents the base and treasonable schemes of the unhallowed and selfish Benedict Arnolds, who are ready to betray their native or adopted soil to a heartless and bloodstained foe. It were well for our land that all our clergymen were animated with such loyal sentiments. They above all others have a Divine right to launch thunderbolts of invective against treason in our midst, and to utter supplications to the Most High to advance our arms until rebellion is forever crushed, and our own dear beloved country is restored to prosperous and perpetual union.

Amusements.

Theatre.—Manager Henderson, after a great expenditure of time and money, will this evening present to his patrons and the public, the great spectral wonder known as "The Ghost." We are informed that the illusion is so perfect that it is the wonder of even the most scientific. The play in which the spectre is introduced is also said to be exceedingly interesting, and as it is one of the full strength of the company, it will prove such a success as Manager Henderson hardly anticipates.

The Pittsburgh Gymnastic Association.—Those members of the Association designing to take part in the forthcoming exhibition will please attend the meeting to-night. All members whose dues are paid, may now enter either the first class or the second, under the instructions of an accomplished German teacher, without extra charge.

Handsome Flags.—Our neighbor Pittock has a large supply of handsome flags, of every size, suitable for political demonstrations, which he sells at very reasonable rates. Parties getting up meetings and others patriotically inclined can be suited with flags by calling at Pittock's.

"Daily Commercial" Job Printing Office.—Orders for every style of Book and Job printing promptly and neatly executed, from a visiting card up to a mammoth poster. The most rapid and improved steam presses are used in the execution of the work.

New Oyster Depot.—Mr. Henry Vierheller has opened a wholesale depot for the sale of oysters and game, under Miner's book store, Fifth street. As Mr. Vierheller understands his business, we have no doubt he will meet with a fair share of patronage.

Those beautiful lots on Nunnery Hill, which overlook the city of Allegheny, at the head of Federal street, are to be sold at A. Leggate's Auction House, 159 Federal street, on Tuesday evening, October 6th, at 7 o'clock. Plans can be had from the Auctioneer, and the grounds will be shown by Mr. Stedeford, who lives on the premises.

Grover & Baker's Sewing Machines, for family and manufacturing purposes, are the best in use. A. F. CHATTONY, General Agent, No. 18 Fifth street.

Vocal Music.—H. D. Brecht, teacher of Singing and Cultivation of the Voice, 126 Smithfield street.

The Campaign.

THE UNION CLUB, at Wilkins Hall, had another rousing meeting on Saturday evening, at which patriotic speeches were made by George F. Gillmore, Esq., of this city, and Professor Hageman, of New York. Mr. Gilmore was, for many years, a Democrat, and editor for some time of the *Post*, of this city, and his speech was well received throughout. The greatest enthusiasm prevailed during the proceedings.

BIRMINGHAM MEETING.—The Union-loving citizens of Birmingham assembled in Convention, Saturday evening, at the Market Square. A. Burtt presided, and F. Plunkett, George E. Slocum, A. B. Stevenson, C. J. Shultz, N. Patterson and J. P. Pears, acted as Vice Presidents. The Secretaries were R. B. Carnahan, Esq., and Allen Hammett. The meeting was a large and enthusiastic one, and was eloquently addressed by Hon. J. K. Moorhead, Hon. Green Adams, of Kentucky, and Thomas M. Marshall, Esq. A brass band and glee club furnished appropriate music during the proceedings, and the demonstration was, taken altogether, one of the most successful and harmonious that we have attended during the campaign.

MEETING IN MANCHESTER.—An adjourned meeting of the loyal and patriotic people of Manchester was held on Saturday night, which was addressed in an able manner by Hon. Thos. J. Bigham. Mr. Bigham devoted his remarks principally to answering a published address recently made by Mr. Cornwell, before the Democratic Club of Manchester, and that he succeeded in completely upsetting all the vague theories enunciated by that gentleman, no one who was present will deny. H. C. Mackrell, Esq., also made an eloquent and appropriate address. From the enthusiasm of the meeting, and the manifest repudiation of the doctrines held by the Woodward party, we would not be surprised to hear that Manchester borough, on the day of election, will give one hundred majority for the Union candidates.

FINANCE AND TRADE.

FOR additional Commercial and Financial Matters see fourth page.

The discount line among our banks last week footed up some five and a half millions. This is about the average carried for some months past. Eastern exchange is in good demand, and brokers are charging ½ per cent. This rate can be lessened by sending "greenbacks" by Express, which only costs one-tenth, and is just as convenient, if not safer than by draft.

Nineteen hundred shares of the Cleveland and Pittsburgh Railroad were sold in New York on Saturday. The prices ranged from 100½, 100⅞ and 100⅜, and 350 at 101⅛. This activity is attributable to the four per cent. dividend declared last week, and according to the Cleveland *Herald*, leaving a handsome surplus on hand, after paying it. There has been in this case the usual talk among operators of an injunction on the dividend. But, as the company advertises its readiness to pay any debt or claim on presentation, it may escape this annoyance, to which it would seem that re-organized railways are particularly liable. Four hundred of the Pittsburgh, Fort Wayne & Chicago were sold at the same board, and brought from 83@83½.

The imports of foreign dry goods at New York for the week are nearly twice as large as for last week, and considerably in excess of the corresponding week last year:

We advance the views of John Thompson, an old banker of New York, as being in the main full of practical good sense, He says in Saturday's *Reporter*:

"In our last number we recommended two important amendments to the National Banking Law:

1. A uniform rate of interest throughout the country, so far as the business of National Banks is concerned; fixing the rate at seven per cent.

2. Amendments that will make the National Bank Currency a legal tender, and compel all National Banks to redeem at par in the city of New York.

These amendments to the National Banking Law may appropriately be termed measures of national policy.

The various rates of interest that rule in the various States, lead to many unintentional violations of law; and in many States usury is punished so severely that great wrongs are often inflicted by designing men upon fair-minded and law-abiding parties.

We think we are safe in saying that not more than one in one hundred of the people of the United States, who give and take notes of hand, know what the rates of interest are in the various States, or know their liability in case they happen to take a note calling for more than the legal rate of interest.

Frauds and swindles are perpetrated on innocent men by the note giver cunningly making his obligation to bear usury, and pleading usury under the State law when payment is enforced.

The people of the United States want one and a uniform rate of interest. Let this measure be engrafted on the National Bank Law, and very soon State laws will be amended accordingly.

If the people know what the law is, the penalty for violation, whether mild or severe, is of little consequence; but severe penalties for *sins of ignorance*, when *to know* is practically out of the question, becomes inhumanity.

In relation to the uniform value of National Bank Currency. The Banks are compelled to redeem *only* at their counters. What is to make and keep Minnesota issues par in New York? How will Illinois issues be treated in New England if they are not par in Boston or New York? The answer is, that the National Bank issues are receivable for Government taxes, no matter where the Bank that issues them is located—and this will make them par everywhere. We admit that this will be the effect on the first issue of fifteen to twenty millions. Even this, however, will depend upon the action of the old New York and Boston Banks. Our readers will remember that the Banks discredited the Government currency before it was made a legal tender.

Then again it is said that the Government will take the National Bank Currency for loans and disburse it for all Government dues. This will surely keep it at par.

Rejoinder. So long as the Government is borrowing and disbursing from one to two millions per day, this will regulate the National Bank currency, we admit. But are we not to see an end of this one or two millions per day of borrowing and paying.

We cannot illustrate this subject in fewer words than to give the speech of a bank officer at the recent meeting to take the thirty-five million loan on the two year five per cent. legal tender Treasury Notes.

'Gentlemen,' said the astute financier, 'supposing we make this loan for two years, by that time the National Banks will have out two to three hundred millions of their currency, which, by law, the Secretary can make us take in payment for the Treasury Notes. Are we not, in fact, contracting to take the thirty-five millions of National Bank currency?'

On the other hand, we find that the National Bankers remote from the cities are getting the idea that they will never see any of their own notes after they are once out. They do not count on ever redeeming. The result will inevitably be to saddle the country with a depreciated currency.

The amendments which we propose—to-wit, make National Bank Currency a legal tender, for all debts, public and individual, and compel all National Banks to redeem at par in New York, will secure a uniform currency. The amendments will give interior Banks, of capital, and good management, great advantages in relieving them from redemption at home. It puts all the currency of all the Banks on an equal footing, and it will effectually stop all backwoods banking.

These amendments will give the Government power to put in liquidation any Bank that does not live up to the principles of good banking, and it will, in our opinion, save the system from an explosion.

Objection is made to giving this redemption exclusively to New York. They say let the Banks choose their redeeming place at the nearest large city. This would be an improvement on the law as it now is; but this would not secure a uniform currency under all circumstances, and it certainly would not do to make National Bank Currency a legal tender without at the same time making it uniform.

It would be better to have one redeeming point, though that point be Washington, than to have a number of redeeming points. New York is the financial emporium of the country. Whatever is par here is par everywhere—whatever is accredited here is good everywhere."

The financial writer of the Philadelphia *Press* thus takes down the terrorists in the money market:

"The fluctuations in gold continue, and today's record is the same as that of last week. There is a huge talk on the street and in the banks of 'the fulness of the European crops,' 'the necessity of sending gold to balance our enormous (?) importations,' 'a still greater expansion of the currency,' 'an unlimited prolongation of the war,' and a few other terrors still more absurd and far too ridiculous to mention. As to the crops of Europe, they are said to be fair; but, if this fact puts up the price of gold, grain operators can afford to sell it cheaper in Liverpool, by reason of their bill of exchange being worth more than when gold was selling at 125. Say wheat is worth so much per bushel. when gold is worth 125; say England does not need our crops and at the price of wheat in England it would not pay to sell it there. But if gold advances to 175, exchange advances with it, and the wheat dealer can afford to send over wheat and sell it about 40 per cent. lower than he could when gold was 125, and net the same amount from the sale. So we think that the advance of gold will only stimulate exports, and one of the great bugbears of the commercial community not only be shorn of its terrors, but will have been *absolutely created* by the fears or the duplicity of those who started the *deeply profound* theory. For it is plain that if nobody *feared* the great crops of Europe, nobody would have a hand in rushing gold up 20 per cent. in as many days, and on that very account. As for a further expansion of the currency, the theory just now is absurd, for about the time that the currency bill passed gold was running up to 170, and partly on account of that bill. Now, with the same volume of coming currency flitting before the misguided eyes of these deep thinkers, gold declined to 122—actually fell off 20 per cent. *Then* it was argued that *we could use all the currency*, and now that the speculators are again terrorizing the timid, the same abundant reason serves to assist gold *up* an odd 20 per cent. or so. So prolific and obliging a currency is certainly worthy the example of the new Mexican Emperor. We commend it to his consideration. Suppose the war is prolonged another year—from the evident signs of decay in the South it cannot hold out much longer than that—the Secretary has his way clear for good half year yet; and there is one fact to be remembered, and that is, when our own people fail in giving their means to support the war, we can send to Europe, sell our bonds for 60 or 70 in gold, bring the gold back, sell it, strike terror thereby into the hearts of the would-be-terrorists, and we entirely 'command the situation.'"

In New York the popular subscriptions to the five-twenty bonds are increasing again, and are averaging over a million per day. A large proportiion of the bonds sold are taken by citizens of Holland. That little State holds more United States bonds than all the rest of Europe put together.

Joshua Hanna, Esq., is still the agent in this city for the sale of these bonds, where they can be purchased on the same terms as at any other city.

The new counterfeits put into circulation last week, are described as follows:

1s, on the **New Haven Bank**, Conn. Imitation. Vig. sailor seated on a barrel, with spyglass, looking at vessels at sea, female portrait to the right.

2s, on the **Merchants' Bank**, Portland, Maine. Vig. Custom House—right end, 2, Washington—left end, Liberty, 2.

5s, on the **Pocasset Bank**, Fall River, Massachusetts. Altered. Vig. Indian on arait, five silver dollars on left end.

10s on the Exchange Bank, St. Louis, Mo., are in circulation, without the president or cashier's signature. The cashier alleges that these bills were stolen from the Bank Commissioner. It is not known what number of these bills have been stolen, and, as the names of the officers can readily be forged, it is now dangerous to receive the ten-dollar bills of this bank. We annex a description of the bills, vig.: Female portrait on right end; female with sickle on left; portrait of Jefferson in centre; the Exchange Bank of St. Louis will pay to bearer ten dollars on demand, at St. Louis; May 1st, 1863, and is countersigned by the Bank Commissioner.

PHILADELPHIA, October 3.—The Subscription agent reports the sale of $654,000 of 5-20s to-day.

PITTSBURGH GENERAL MARKET.

OFFICE OF THE DAILY COMMERCIAL,
Monday, October 5.

Business on Saturday was dull; the sales made were only in a small way to meet the wants of the local trade. Prices generally were unchanged. The weather continues very pleasant. Our coal boat men are anxiously awaiting a rise of water. The amount of coal to go forward the first rise is very large. Consumers in the lower cities are looking forward to that event with a good deal of interest. The sales that came under our notice were as follows:

BACON—We have nothing new to notice in regard to this article; the supply on hand is light and is rapidly disappearing under the present local demand; among the sales were as follows:

Shoulders—7000 lbs at 6¼@6½c.
Sides—1000 lbs ribbed at 6½@6¾c.
S. C. Hams—2.00 lbs at 14@14¼c; the market is becoming bare.
Plain Hams—3000 lbs at 10¾@10½c; some dealers are entirely out of this article.
Country Meal—Has become quite scarce, the season being about over, the receipts were not worth noticing.

GRAIN—The market on Saturday presented no new feature; all parcels of grain that were offered found ready purchasers at the outside rates; the principal transactions at present take place at the depot.

Corn—Notwithstanding the decline in the West is very firm here; we note sales comprising 1200 bush at 93@95c, whilst some dealers have withdrawn their stocks, waiting for higher figures.

Wheat—Was firm: the offerings were limited; white was held at $1 20@1 25; red $1 10@1 15 ₱ bush.

Barley—We quote spring at $1 15@1 20; fall at $1 25@1 28; the principal sales were made from wagon.

Oats—Holders were firm; we quote sales 2200 bush in lots on the track at 70@73c; the usual advance was obtained from store.

Rye—We did not learn of any transactions.

APPLES—The market continues dull, and will continue so as long as the supply exceeds the demand; we note sales of 350 bbls in lots at $1 50@2 00@2 50 ₱ bbl.

SALT—Continues to be inquired for; the supply for some time past was limited; sales 110 bbls at $2 50 ₱ bbl.

FLOUR—The market on Saturday was firm; buyers however were more shy than on the previous day; holders however were not disposed to give way, and refused sales unless the outside rates were obatined; the stock in this market is rapidly disappearing, whilst the receipts were quite limited; among the sales were as follows, all from store:

Extra—230 bbls in lots at $5 50@5 70.
Extra Family—164 bbls at $6 25@6 50; sales of fancy in a retail way were made at $7 ₱ bbl.

HAY—The receipts were light; prices have undergone no change; sales 10 loads at $27@33 ₱ tun.

GROCERIES—The market was very firm at last quotations; there was nothing done worthy of special notice; we omit prices.

WHISKEY—The market was firm; we note further sales at 53@54c ₱ gall.

PITTSBURGH OIL MARKETS.

OFFICE OF THE DAILY COMMERCIAL,
Monday, October 5.

The market on Saturday was dull, the sales made being only in a small way. Buyers and sellers are wide apart in their views. The stock in the market is not large, whilst the principal portion is held by Eastern firms. The exports were as follows: To New York—Refined, 1,333 bbls.; Tar, 110. To Philadelphia—Refined, 209 bbls.; Crude, 223. To Baltimore—99 bbls. Total, 1,964 bbls. Imports: Per A. V. R. R.—Refined, 588 bbls.; Crude, 432 bbls. Per P. F. W. & C. R. R., —108 bbls. Per Allegheny River—1,197 bbls.

Crude—The following are all the sales we could ascertain: 100 bbls., packages returned, at 27c.; 64 bbls do, same terms; 180 do, terms withheld; including packages, 32c was the rate.

Refined—Not much doing in this article. A lot of 40 bbls, Free, yellow, was sold a- 61c. This is above New York rates.

Benzole—The demand is improving, and we note a sale of 80 bbls. at 20@20½c.

Residuum—Prices have settled down to $3,50 per bbl.; buyers will pay no more.

Special Dispatch to the Commercial.

CINCINNATI, October 3, 1863.

Flour remains in the same position it was yesterday. Superfine $5 10@5 25, and Extra and trade to fancy brands $5 50@6 75 ₱ bb.. Wheat quiet and unchanged. Receipts of sheiled Corn large and market dull at 85@86c. Oats in good demand at 70c. Rye 98@$1 00. Whisky 52c. Coffee buoyant and prices fully 1c. higher; Common to Prime 30@33. Suger firmer at 12½ @14½ for Rio, and 16¾ for hard refined.

RIVER MATTERS.

Louisville.—The water in the canal yesterday evening, was full twenty-one inches by the mark, having fallen in twenty-four hours one inch. At Portland Bar there is about thirty-four inches water in the channel. The condition of affairs out of the Ohio and in the Mississippi is not much changed in the last few days. It rained almost constantly throughout the day yesterday, though the fall of water was not heavy. The rain has not yet ceased, and the probability is that the river will fill up somewhat with water in the next few days.

Special Dispatch to the Commercial.

Latest from General Rosecrans.

PHILADELPHIA, October 3.—The latest information from various points is not of much importance.

Official dispatches from General Rosecrans to the 1st instant, have been received. They represent affairs in and around Chattanooga as satisfactory as most people could desire. Bragg has made no advance, and what is better, he dare not. The statement in the rebel papers that Gen. Burnside had retreated from Jonesboro', in East Tennessee, to Knoxville, is without foundation.

Commissioner Mason Leaves England.

Advices from Europe, three days later than previous dates, state that the rebel Commissioner Mason has officially notified Earl Russell of his withdrawal from England, in obedience to instructions from the rebel Government. He proceeds to Paris.

The London Times on Charleston.

The London *Times*, editorially, admits that the fate of Charleston is decided; that its fall is simply a question of time.

England to Acknowledge Maximilian.

It is asserted in France that Great Britain has agreed to acknowledge the usurpation in Mexico, as soon as Maximilian officially announces his acceptance of the crown.

The Missouri and Kansas Delegations.

A mass meeting, specially called to welcome the Missouri and Kansas delegations, was held last evening at the Cooper Institute, New York. The attendance was very large.

Reinforcements for Rosecrans.

A letter from Nashville dated the 27th, says that since Thursday last reinforcements have been pouring down to Chattanooga, and that on the day the letter was written, some twenty or thirty Parrott guns, lying unused since Nashville fell, were also forwarded to Rosecrans.

The Captured Ram Atlanta.

The ram Atlanta, captured before Savannah, arrived at the Navy Yard last night. Immense crowds have gone to see her.

New York Harbor Defences.

The city of New York is making great preparations to defend itself from attack by sea. In a very short time no vessel can pass up the bay from Sandy Hook without being exposed to the fire of eight hundred guns.

Special Dispatch to the Commercial.

CINCINNATI, October 4.

Late News From East Tennessee.

News from Rosecrans' army has been received, up to the 30th ult. Both armies are fortifying, and the pickets are within a stone's throw of each other.

The enemy attempted, on the 29th, to force the passage of the Tennessee river, but were repulsed.

The privates have been exchanged, but the rebels refuse to exchange wounded officers.

An officer, who left Chattanooga on the 27th, reports the army in fine spirits, and confident of ability to defeat the enemy, if attacked. General Rosecrans wished people North to be assured that he is in no danger and can maintain himself.

Steamboat Burned.

There is no important news from below. Some particulars of the burning of the steamer Robert Campbell near Milliken's Bend were received, but nothing in addition to the statement already telegraphed. The boat was owned in St. Louis. She was valued at $60,000 and insured for $25,000. It was undoubtedly set on fire. It is believed to be part of a scheme to destroy our transports on the western rivers.

Milwaukee Markets.

The decline in gold had a depressing effect on breadstuffs yesterday, and we have to note a decline on flour and wheat in this market.

Transactions in wheat opened on 'Change at an abatement of 1c from Tuesday's ruling prices, the market ruling steady for the most part at $1 02½ for No. 2, and $1 05½ for No. 1 spring in store. After the receipt of the New York report, the market settled to $1 02 and $1 05, and the demand at these figures being speedily supplied a further decline of ½@1c took place, the market closing nominally at $1 01 for No. 2, and with sales of a few thousand bushels No. 1 at $1 04½. The sales were liberal but not so large as Tuesday, amounting to about 145,000 bushels.

In the evening about 20,000 bushels No. 1 spring changed hands at $1 04½, making the total sales of the day 165,000 bu.

The flour market was affected by the same causes operating on wheat, and closed dull and nominally lower. Sales comprised about 1,000 bbls at $5 15@5 25 for country spring extra, $5 50 for double extra, and $6 60 for winter wheat brands. Rye flour scarce and higher.

Oats were in good request and active at 52c in store. Corn in light supply and a small amount sold at 80c delivered. Barley was in good demand at our former quotations. Rye advanced 1c, bringing 83c in store.

Lake freights are not materially changed, but the tendency was in favor of shippers. Two vessels were chartered at 7c and one at 6¾c for wheat to Buffalo, and one at 11c to Oswego.

Chicago Market.

The receipts of flour and grain for the 24 hours ending 7 o'clock this a. m., were 7,169 bbls. flour; 103,478 bus. wheat; 42,337 bus. corn; 42,669 bus. oats; 4,666 bus. rye; 17,839 bus. barley—making a total of 246,037 bus. grain and grain in flour. The shipments for the same time were 7,049 bbls flour; 69,875 bus. wheat; 23,000 bus. corn; 36,000 bus. oats—making a total of 168,878 bus. grain and grain in flour.

Our markets are again dull, and all the leading articles of produce show a declining tendency. Flour was almost entirely neglected, and to effect sales holders would have been compelled to accept a decline of 15@20c. per bbl. Many holders were unwilling to sell, and withdrew their samples. Wheat opened 2@3c. lower. A few sales of round lots were made early at 98c. for rejected spring, $1 00½ for No. 2, and $1 03½ for No. 1 do, but soon declined to $1 00 for No. 2, $1 03 for No. 1, and 97c. for rejected—the market closing steady. Corn dull, and about 1c. lower. No. 1 sold at 71c, and No. 2 at 70. Good to choice canal mixed afloat at 51½@51½c. Rye 1@2c. lower, closing at 82@82½c for No. 1. Barley 2@3c lower, with a good demand at $1 07@1 08 for No. 1 in store. Timothy seed steady, with good demand. Highwines less active, with sales at 50@51½c. Many holders are asking 51c. Pork and lard quiet, with light sales. Butter in good demand. Salt firm and 10@15c higher. At the close New York and Michigan was held at 2 65. Sugars higher.

Toledo Market.

Wheat—Sales of 1,000 bush, 700 bush and 1,200 bush white Michigan at $1 34; 1,000 bush and 3,000 bush amber Michigan at $1 23; 2,000 bush, 1,000 bush, 5,000 bush and 1,500 bush No 1 red at $1 20; 2,000 bush No 2 red at $1 18; 1,500 bush and 2,500 bush do at $1 19. 3,000 bush do at $1 20; 1,500 bush red Michigan at $1 23.

Corn—No Sales. We quote No 1 mixed at 73c.

Oats—Last sales at 56c.

Rye—Quoted at 70c.

Barley—Brewers are paying $1.

Wool—The range is from 60 to 63c for medium grades.

Salt—Fine $2 45 ₱ bbl; coarse and ground solar $2 50.

New York Sugar Market.

A good inquiry prevails for Raw Sugar, principally from refiners, but as holders are still undisposed to offer their stocks freely, the sales are restricted; fair to good Refining may be quoted strong at 11¾@11¾c. sales of 1,000 hhds. at 10¾@12¾c. for Cuba; 14@14¾c. for New Orleans, and 445 boxes Havana, mostly at 12¼c. Refined is very active, the demand being chiefly from Western buyers, and refiners are enabled to dispose of their goods as fast as manufactured, in fact, many sales are made ahead of production; prices are again higher, and we quote to-day at 16¼c. for Hards; 15¾@15¾c. for Soft Whites, and 14@14¾c. for do. Yellow.

Philadelphia Boot and Shoe Market.

Trade has been very satisfactory through the months just closed. The majority of the sales have been to the West and Southwest, the nearby trade being yet comparatively idle. The shipments Westward have been unusually large for this market. There has doubtless been more boots and shoes, mostly heavy goods, shipped to Memphis during the past month than ever before in the same time. St. Louis and Nashville have also been large buyers. This class of trade is, however, slacking off, and jobbers are meeting a demand nearer home. Various sections of the Northwest are yet buying freely. The jobbers are holding Eastern goods firmly, but at the same prices that ruled the first of the season. Very few city-made goods are found in jobbers' hands. The call for city-made work of all descriptions is sufficiently strong to enable makers to sell all their product at once. In fact, nearly all of the makers are constantly employed upon orders, and find the greatest difficulty in procuring labor to get up the work. The production of misses' and children's shoes, especially, is not equal to the demand. The tendency in city made goods is to higher prices.

We give our table of monthly arrivals of Eastern boots and shoes for the month of September:

Boston Boot and Shoe Market.

There is less activity observable in the Boot and Shoe market, although a very satisfactory business is done when the lateness of the season is taken into consideration. The stocks of goods on hand are greatly depleted, and sufficient orders are given out for most of the desirable styles to keep our manufacturers busy until late in November. Prices are firm and no goods can be ordered ahead without advanced rates are offered. Goods for the army are in good demand, especially for the Cincinnati market, but the railroads are so crowded with freight that many contractors who thought they had sufficient time on their contracts will be behind time, and thus lose the fifteen per cent. which is demanded at that office as the penalty for failure to fill their contracts to the letter.

The total shipments of boots and shoes by rail and sea, for the past week, have been 13,512 cases. Of this number 42,612 cases were sent by rail, as follows: 4,316 cases to New York and Pennsylvania; 1,299 to the Southern States now in our possession, and 6,997 to the Western States. The clearances from the Custom House were 900 cases.

Philadelphia Leather Market.

The *Reporter* says:—The leather market has been quite active, and the sales have been large and prices fully and firmly sustained. There has been some little speculative feeling in the trade, which has tended to force up quotations. The important sales have, however, mostly been made to actual consumers from our own and adjoining markets.

Slaughter Sole.—The demand for Slaughter Sole embraces all weights of rough and rolled. The inquiry is large, and the stock in market is kept well reduced. We quote the best country and city at 40@42c. Some prime lots are held at 43c., but we hear of no sales at this price for country tannage. The tendency of the market is upward.

Spanish Sole.—We notice an active trade in dry hide leather. The call is mainly for heavy, in which the market is not fully supplied. Prime heavy and overweights Buenos Ayres or La Platte leather is selling at 39@40c.; Caracas and lighter descriptions are offering at 34@39c.

Baltimore Metal Market.

Metals.—Owing to the advance in gold all metals have been held higher. Sales have been to a fair extent.

Iron—We note sales of 200 tons Scotch Pig at $28, and revise quotations as follows, viz: Baltimore Forge $43; Baltimore Charcoal No. 1 Foundry, $43a45; other brands No. 1 Charcoal, $38a40; No. 2 do. $35a36; No 3 do. $34a35; Scotch do. from yard, $28a29; American and English refined bars, $87,50a90; common do. $82,50a85; Swedes $125; Russia Sheets 18¼a19 cts; American do. 6¾a7c per lb. Nails sell slowly as follows:—Cut 4d. and upwards $4,90; do, 3d. $5,90; do 2d. $6,90 per 100 lbs; wrought 6d. and 12d. 6¼a6¾c, bolt and ship's spikes 7c, and bolt rivets 7c per lb.

IMPORTANT TO
Railway Companies, Mill Owners, &c.
We have erected and have in operation near this city an extensive Labratory for the manufacture of
LUBRICATING AND PAINT OIL,
by a new and ingenuous scientific process—and now offer and commend to public notice and patronage three grades: A, B and C, respectively of 1st, 2d and 3d quality LUBRICATING OIL. Wherever these lubricators have been tested they have been pronounced greatly superior to any of the preparation lately offered in the market. The A, or best quality is designed to take the place of the best Sperm Oil, and for use on cotton, woolen or other fine machinery. The B, or second quality for Railways and other like machinery, and the C, or third quality for heavy and course gearing, &c.
The PAINT OIL has been tested by numerous painters in this city, and found to be a
Capital Substitute for Boiled Flax-seed Oil,
Indeed, many painters give it a decided preference. These OILS are now extensively manufactured at our
EUREKA LUBRIC OIL WORKS,
As the process is scientific and uniform, customers can rely on the uniform excellence of these Economic equivalents of Sperm and Flax-seed Oil. A trial and test is confidently invited. For sale at No. 31 MARKET street, corner of Second.

THE MANUFACTURERS OF SAWYER'S CHEMICAL OLIVE SOAP, after subjecting it to the severest tests known to the trade, are fully persuaded that there is no Family Washing Soap in the United States, for so little money, having at once so many good qualities, (and so few discounts.)
OF BEAUTY—In colors, firmness, surface and texture generally.
OF PURITY—In freedom from rosin, turpentine, clay, fish oils, stale grease and adulterations.
OF QUALITY—For washing—with cold, warm, soft, hard or salt water—clothes, of every description, coarse or fine; cotton, linen, woolen or silk; dyed, printed or white; for erasing tar, grease, pitch, paint, oil, printers' ink, shoemakers' wax, etc., from clothes, furniture and from the hands.
Give it a fair trial for yourselves, and be convinced.
Remember, the name is on each bar. Ask for a copy of the directions.

MEDICAL.

HOSTETTER'S
CELEBRATED
STOMACH BITTERS.

HEAR THE WITNESSES.

WORTHLESS and pernicious articles are so often bolstered up in the advertising columns of the press by fabricated letters that the proprietors of

HOSTETTER'S BITTTERS

Rarely give quotations from their business correspondence, lest the GENUINE OPINIONS of those who use and appreciate a GENUINE ARTICLE, should be confounded by the unthinking with the FULSOME RIGMAROLE put into the mouths of MEN OF STRAW by unscrupulous empirics and charlatans, whose double object is to SELL both their trash and the PUBLIC.

Believing, however, that FACTS IMPORTANT TO THE HEALTH AND COMFORT OF THE PUBLIC, and which can be VERIFIED AT ANY MOMENT by addressing the parties who vouch for them, ought not to be hid under a bushel, the undersigned publish below a few communications of recent date, to which they invite the attention of the people, and at the same time ESPECIALLY REQUEST all readers who may feel interested in the subject to ADDRESS THE INDIVIDUALS THEMSELVES, and ascertain the correctness of the particulars.

It may be thought, perhaps, that a preparation like HOSTETTER'S STOMACH BITTERS, which has long held a STANDARD POSITION throughout the WESTERN HEMISPHERE, and is rapidly becoming a staple of trade at the antipodes, speaks for itself in stronger tones than private eulogium can speak for it. This is true; but the phases of disease are almost innumerable, and every day new instances of the success of the Bitters, either as a PREVENTIVE or a CURE, come to the knowledge of the proprietors through the mails. Some of these are of immediate interest to thousands placed in precisely the same circumstances as the parties who have been PROTECTED and RELIEVED, and therefore it seems almost an act of duty to put them on record.

The immense increase in the sale of HOSTETTER'S BITTERS, both at home and abroad, during the past year proves that the world, while it obeys the Scriptural injunction to "try all things," only "HOLDS FAST to that which is GOOD." Spurious preparations, like poisonous fungi, are continually springing up, but their character is soon discovered, and they are "flung like worthless weeds away." On the other hand, a great antidote that performs all it promises, and even more than the proprietors claimed for it on its introduction, is "not for a day, but for all time."

Every dose administered of a useless or deleterious nostrum helps to disabuse the public mind of the impressions it may have received from the flourish of trumpets with which the deceptious article was announced; while, on the contrary, every bottle sold of a purely valuable medicine secures the permanent custom of the purchaser, and makes him a DVERTISER OF ITS MERITS among his friends. It is thus that HOSTETTER'S BITTERS have obtained their unparalled popularity. The Press, indeed, has made the GREATEST of the widely known, but it is the uniformly successful results of PERSONAL EXPERIMENT that have rendered it a HOUSEHOLD MEDICINE through out the length and breadth of the land, and the main reliance of the TRAVELER, the VOYAGER, the MINER and the PIONEER.

During the Summer months, a pure, wholesome tonic, in which are also incorporated the properties of an anti-bilious and mild aperient agent, is especially needed. Such a preparation is HOSTETTER'S STOMACH BITTERS, the surest preventative and cure of dyspepsia, biliousness, constipation, and nervous debility, ever placed within the reach of the community.

Against the depressing and sickening tendency of heat and miasma, it is a potent safeguard, and upon persons of feeble constitution and uncertain health, its renovating effects are most extraordinary.

READ REV W. B. LEE'S LETTER,
BROOKLYN, N. Y., May 28, 1863.
Messrs. HOSTETTER & SMITH—*Gentlemen*:—I have used your Bitters during the last six weeks and feel it due to you and the public to express my hearty approval of their effect upon me. I never wrote a puff for any one, and I abhor everything that savors of quackery. But your Bitters are entirely removed from the level of the mere nostrums of the day, being parent alike to all, and exactly what they profess to be. They are not advertised to cure everything, but they are recommended as tending to assist nature in the alleviation and the ultimate healing of the most common infirmities of the body, and this they will accomplish. I had been unwell for two months, as is usual with me during the Spring. I was bilious, and suffering from indigestion and a general disease of the mucous membrane, and though compelled to keep at work in the discharge of my professional duties, was very weak, of a yellow complexion, had no appetite and was much confined to my bed. When I had been taking your bitters a week my vigor returned, the sallow complexion was all gone, I relished my food, and now I enjoy the duties of mental application which recently were so very irksome and burdensome to me. When I used your bitters I felt a change every day. These are facts. All inference must be made by each individual for himself.
Yours respectfully,
W. B. LEE,
Pastor of Green avenue Presbyterian Church.

PROSPECT HALL,
GEORGETOWN, D. C., April 2, 1863.
Messrs. HOSTETTER & SMITH—*Gentlemen*: It gives me pleasure to add my testimonial to those of others in favor of your excellent preparation. Several years of residence on the banks of a Southern river, and of close application to literary work, had so thoroughly exhausted my nervous system and undermined my health, that I had become a martyr to dyspepsia, and nervous headaches recurring at short intervals, and defying all known remedies in the Materia Medica, I had come to the conclusion that nothing but a total change of residence and pursuits would restore my health; when a friend recommended Hostetter's Bitters. I procured a bottle as an experiment. It required but one bottle to convince me that I had found at last the right combination of remedies. The relief afforded me has been complete. It is now some years since I first tried Hostetter's bitters, and it is but just to say that I have found the preparation all that it claims to be. It is a standard family cordial with us; and even as a stimulant we like it better than anything else; but we use it in all nervous, bilious and dyspetic cases from fever down to toothache. If what I have now said will lead any dyspeptic or nervous invalid to a sure remedy, I shall have done some good.
I remain, gentlemen, respectfully yours,
E. D. E. N. SOUTHWORTH.
